

## COVID-19 Statement

April 10, 2020

Dear Customer,

We are living through an unprecedented time, with uncertainty caused due to the outbreak of COVID-19 across the world. TEKOP&KABB remains open and operational, and committed to all our project services across the country. We are committed to providing our bespoke offering of technical solutions whilst protecting the well-being of our employees and clients alike.

We are continuing to monitor the situation, following the advice of the Nigerian Government, NCDC and their experts.

Face to face meetings have been reduced to a necessary minimum and where possible we are utilizing phone and video conferencing to conduct business.

We have been contacting all our major suppliers, to ensure that our supply chain is guided by the COVID-19 safety protocols and remains robust regardless.

Cleaning and additional hygiene regime / provisions have been introduced on site to limit the risk of a further spread of the virus. All staff are reminded to wash hands for at least 20 seconds, clean personal workspaces and keep distance from each other, as per the government guidelines.

We are embracing these enforced changes to our business operations, keeping the bespoke needs of our clients at the forefront of our business. If you need any further information please contact us through the normal channels.

Isaac T. Brown,

Managing Director
